

## **UNDERGRADUATE RESEARCH ASSISTANT POSITION SUMMER 2018**

We are looking to add a member to our watershed research team to work on hydrology and biogeochemistry projects.

You are an ideal candidate if you:

- Are a 2<sup>nd</sup> year- (or more senior) student enrolled in Geology, Geography, Environmental/Soil Science or Engineering;
- Enjoy being outdoors;
- Do not mind getting wet and dirty;
- Are interested in learning about both basic and sophisticated field and lab instruments;
- Have taken a water-related or soils course recently.

What the job will entail:

- Working from late April to mid-August 2018, 32 hours a week;
- Doing lab work and field work;
- Analyzing data towards conference presentations and potentially journal manuscripts;
- Earning some money...

Number of positions to be filled: at least 1, possibly 2

**Interested? Contact Dr. Genevieve Ali by February 2<sup>nd</sup>,  
2018: [Genevieve.Ali@umanitoba.ca](mailto:Genevieve.Ali@umanitoba.ca)**

*N.B.: To officially be considered for the position(s), please email copies of your resume and unofficial transcripts.*
